

Stumpex

COMING SOON TO A STUMP NEAR YOU!

The newest, fastest, and most cost effective way to remove stumps

The patent pending **Stumpex** is the ideal tool for complete and fast removal of stumps.

- The **Stumpex** works on any species of stump.
- With the ability to bore 20" into the ground, feeder roots are also removed.
- The **Stumpex** can be mounted on high flow Skid Steers and Excavators.
- Unbolt the **Stumpex** Stumper and change to other attachments like a post hole auger for maximum flexibility.

- 10" - 32" Stumps / 20" Deep = 90 seconds
- High Torque / Low RPM = Improved safety
- Rocks = Less Impact/ No tools to replace
- Less moving parts = Less lean up / safer
- Zero Maintenance
- No costly teeth to replace
- Blade Sharpening = every 1,000 stumps
